On the following pages you will see a comprehensive list of the notable people who have written and signed Success Quotes. With very few exceptions, all are completely handwritten and signed. If you are concerned about any particular person's quote, please ask about it.

The people in this collection include presidents, vice-Presidents, moon walkers, Nobel Prize winners, authors, scientists, entertainers, Medal of Honor winners and many, many more.

The Success Quotes cards were specially printed for this project.

This collection is only being sold in it's entirety. I will not sell pieces separately.

If you have questions about any of the pieces, the entire collection, etc. please ask.

The price of the complete collection is \$75,000 plus insured delivery.
